

## Session 3, 2024 Memory Book

## ***A Note from the Camp Director Jud Millar:***

Hello Stone Mountain Adventure (SMA) Family! Wow, can you believe it? The summer of 2024 has come and gone in the blink of an eye, and what an incredible season it was! Celebrating our 41<sup>st</sup> summer, SMA has once again delivered an unforgettable experience, and we are absolutely thrilled with how everything unfolded. It feels like just yesterday we were gearing up – dusting off the canoes, tuning up the mountain bikes, and getting ready for another amazing camp season. Now, as we look back, the memories from this summer etched in the history books. Even as August continues, we find ourselves reminiscing and saying things like, “Remember that time in the first session? That was awesome!” We truly had a blast!

**Campers,** We miss you all dearly. It feels so weird to have the cabins empty and camp is just not the same without your energy and enthusiasm. We hope you’ve had a fantastic end to your summer and have had the time to recharge from the whirlwind of camp life.

**Parents,** a heartfelt thank you for entrusting us with your wonderful children. The SMA Summer of 2024 was filled with remarkable individuals who made this summer truly special. We will cherish forever.

On the final full day of camp, we took sometime for reflection and we asked each camper to share their thoughts about their SMA adventure. We’ve compiled their heartfelt reflections along with a brief overview of the activities we enjoyed, all thanks to our outstanding staff. We hope you find joy in this SMA Memory book and the reflections within, just as much as we have.

Wishing you all the best for the school year ahead!

Warmest regards,

Jud, Anne, Wyatt, Molly, Pam, Biff, Comet, Jack, Piggy, the cats, the Horses, the Rabbits, and all the other wonderful farm friends!

## **Camper reflections from SMA Session 3, Summer 2024**

Kai Kalandaria

Stone Mountain Adventures is a special camp and I love it here! This session I climbed the left face of Shark's Tooth, which is a 5.10b. I also managed to stand up on the wakeboard for the first time. Also, doing paper plates was fun.

Zefora/Lonnie R

Hi I'm Lonnie, this is my 5th year and my 10th session. Unfortunately this is my last year here as I am 17 and a 'supercamper'. I have had so many wonderful experiences here. I have made so many amazing friends here who have stuck with me throughout my time here. I've been a wakemaster for the past 4 years. My first year I wasn't a wakemaster, but I learned quickly to love the boat and wakeboarding. Through wakeboarding I have built up my confidence with jumping the wake and learning new tricks. My peers and counselors have supported me through the learning curve. Besides wakeboarding, I've had so many amazing memories, from helping with the dance to singing in the talent show with my cabin. This place has true magic behind it and if I could tell anything to my past self I'd tell them not to be afraid of change. Change is good and you can learn so much from it. This place has not only changed me but so much more. I love SMA and I will miss every part of it, I mean it.

Melissa

I had so much fun during my first week of camp! I explored Ohiopyle, played tennis for the first time and made great bracelets in the art studio. However, I learned more lessons this session than any other time I've spent here. I learned that putting friendships first is the right thing to do no matter the situation because it isn't worth the risk. I learned to be open to advice even if it means I have to accept my mistakes in order to grow. I learned that listening to others is very powerful and special. AMEN.

Stella Stobart

Out of the two sessions I was here, session 3 was the best one overall. All the counselors were so nice, sweet and caring to me. I really liked how all the campers and my bunk mates were there for me when I needed it. My favorite activity this session was playing ultimate frisbee. I loved the talent show and how everyone was dancing along to it. I felt so proud of myself both sessions and I had an amazing time. I loved it when we went disco bowling, I had a great team and good food too. I saw a shooting star for the first time this session and it made me so happy. SMA is the only place I can see stars in the sky as where I live there are no stars- how crazy is that! I am so incredibly grateful to all the SMA staff who took great care of me and I am grateful to Chase and Jud for having me at SMA. I will miss the counselors deeply!

Becca Bader

Camp was lots of fun! Rock climbing (and making it to the top) was awesome! Fighting the counselors on the magic carpet during Sup n Sail was really fun! The Yough was chaotic but so much fun - my boat came in second place! The talent show was great. Everyone had such good acts and even when they didn't go perfect people made the best of it and they were all wonderful. I greatly enjoyed all camp activities (although the boys throwing eggs at each other during the BBQ was rather strange). French revolution, bowling, ice cream, Jud games and more were all chaotic and so much fun.

Pedro

I've had a lot of fun at camp over the last 2 weeks. The activities were very fun and my favorite activity at SMA was the climbing overnight because myself and the other campers got to go climbing and explore caves. We also got to tell scary stories which was very fun.

Estelle Lambert

This is my 2nd year and my last year as a camper at SMA. This year I had so much fun. Being in this place, Pennsylvania, at SMA, brings me so much joy every time. Meeting new people

and trying new things is what matters to me. Here I don't have any problems and I'm so far away from my daily life in France. I'm so sad to leave everything here and I want to come back so much next year. I want to try and experience being an AOP as it seems so exciting. I'm gonna miss this place so much because I know that if I feel bad I would just have to think about SMA and it will make me feel better.

Lucia

This session I had a really good time with my friends. We did a lot of fun activities like wakeboarding or rock climbing. I had a lot of fun on the activities, but I also had lots of fun hanging out with my friends during power hour, white water rafting and playing Jud games.

Asara Obra

Camp was so much fun! I've made so many new and amazing memories with people who have taught me so many meaningful lessons.

Sydney

I had a lot of fun at SMA. Even though there were some downs, overall I had a great time! I loved the wake boat, meeting new people and making friends.

Maribel

I had a lot of fun at camp. Jud games were very fun and I made a lot of friends. On the ice cream night I had lots of fun, however, I was pretty nervous because I wasn't sure of my English skills. On the rock climbing overnight I met new people and we went caving which was really fun. On the first day of power hour I didn't spend time with friends but I read a very interesting book. In the second week I spent more time with friends and we played football. At white water rafting I had a lot of fun, we were a small group but we were the best. I'm sad to be leaving camp because I will miss my friends.

Alex Pradal

I had a lot of fun this session. Of course it was a little hard at the beginning because my friends left from the session before but I've met amazing new people and grew much closer to my friends. Having my sister at camp was a little weird but it's really nice having someone from home when you're in a place so far away from where you live. I hope that people close to me had as much fun as me!

Olivia Tucci (Bertha)

This session I was excited to meet all the new campers. Every activity was always fun with everyone. Even when we had free time, there were plenty of sports happening or a water fight. I can't wait for next year!

William T

Camp was fun this year. I enjoyed getting ice cream and power hour. The white water rafting was fun - I was in a group with Ben, Gavin, Max and Lily. We had a very good group in crows nest and I enjoyed chilling in there.

Addison Simons

I loved camp! I had so much fun! One of my favorite parts was the overnights. I went on two - a rock climbing one and the wake boat overnight. My favorite by far was the rock climbing overnight. Even though it didn't go exactly as planned, it was so fun. When we arrived we set up our camp and we went exploring. We explored caves, climbed rocks and it was so fun! The next day, on our way back, we stopped by an Amish market and it was so good! We

went rock climbing when we got back and it was the best overnight ever! Also, when we had to go to bed it was raining so we slept in the van! Everything I did at camp was so fun and this has been an unforgettable experience.

Jesse Good

My experience at SMA this year was the best I've ever had, but it was also the most confusing. I made so many new friends this year and reconnected with returners. I learned to listen to people and be compassionate. I love how extroverted and outgoing I was this year compared to past years. This is a great way to go out in my opinion. I will miss everyone and take the lessons I've learned at this camp with me.

Shane Bader

Coming back made me worried as to what people I would find and how they had changed. I also thought a lot about how I had changed over the years but as the days went on I found that it felt like it was just the start of a great new session.

Lorelei Keil

This week I returned to camp as a year two. This camp has been a special place to me and many other campers. We are given so many once in a lifetime chances like white water rafting, rock climbing with beautiful scenery, wake boarding etc. But sports aren't the only things... We make friends that have traveled from all around the world and these friendships last forever. I feel so lucky to have the chance to be here and so sad to leave. I look forward to coming back next year.

Mike

This session was fun. I met new people and made new friends. The session felt very short but when I think back on it, it feels very long. I had lots of fun mountain biking and learned new tricks and pushed myself harder. Next session I want to meet more people and have more fun.

Theo

Going into SMA this year was really nerve-wracking. This was my first year and I knew no one but once I got to camp I was shown around and I made new friends. I have learned to be more independent and self-reliant during the session. I have really enjoyed trying new things like white water rafting and wakeboarding. I had fun sneaking up on counselors

during the French revolution and laughing during the talent show. I had lots of fun for my first time at SMA and I am eager to return next year.

Gavin Porsche

I loved white water rafting because I was around my friends talking and having fun. Wakemasters was really fun also because Adam taught me how to kneeboard and it was really fun riding on the boat. Sheetz was nice because of the slushies. I liked being around the counselors because they were all nice and funny. I liked sup n sail because it was a time to swim and calm down. Thank you SMA for giving me the best summer ever!

Alex B

I feel like my second session of this summer went by much faster than the first. Every day here went by so quick and I wasn't able to enjoy and take it in as much. Even though it did go by so fast, I had a lot more fun. I really enjoyed my time making a \$1405 order at Sheetz and rock climbing. I also really enjoyed bowling and ice cream night. I'm really excited for next session!

Adam Palmer

The time I spent at this sleepaway camp has been some of the most fun I have had at a place with people I don't know. Doing fun activities like wakeboarding, sleeping in cabins, rock climbing, evening meetings, eating new foods and most important of all, meeting new people - I can cherish these amazing times at SMA.

Lily

This was my second year at SMA and I so glad I found SMA and camp back for another summer. I feel like a different person when I am at SMA. I had a lot of fun in art studio, canoeing and even white water rafting. SMA is a great camp.

Spenser

This is my second session here this summer and my 3rd year at SMA. I can't express enough how much this camp matters to me. When I look forward to camp I don't realise how quickly it could all finish. And while some people say this is their home away from home, to me this might feel like more of a home than I've ever had. I think what makes this camp so special is strictly just the people. Everyone is welcoming and you make friendships that quite literally last forever. And this being my third time at camp, I think I have become really good friends with people here and have more than at home or any other place. So I am sad that I have to wait a whole year more but I am extremely excited to come back as a fourth year.

Emily

This was my first year at SMA and it was a better experience than I thought it was going to be. Actually it was quite awesome! I was so nervous when I arrived but it turns out I had nothing to worry about because I was welcomed with open arms. I made a lot of new friends here and had a lot of fun. I can't wait to come back next year!

Kipp

This session was kinda long with lots of fun rides to and from the rafting with Alex, Evie, Alec and also the great counselors and AOPs. It was fun with Mike, Daniel, Evie, Alec, Alex P, Alex I, Asara and Bex.

Alec Conklin

During these past 2 weeks, I've learned a surprising amount about myself, my problems and my relationships. During the weeks, I had both a great time but also hard. I've figured out that sometimes you can not balance everything and that you might have to cut out parts of your life to save others. I wish I could go back and change some of the things I did but there's no real point. I've learned my lessons and the camp has taught me to hopefully never repeat it again.

Lucas

This is my first session ever at this camp. White water rafting was a great experience and it was a great way to learn about other people Candlight was a perfect way to know if there were any problems happening and if someone had something going on but at the same time you learned everything good about the camp and the campers here. The camp is one of the most fun camps I have ever been to.

Alex I

I was very excited for my bike to come here. The first day I got it, I broke my bone which was pretty lit not going to lie.

Benjamin Petit

My second year of SMA was just as exciting as the first. I really enjoyed all the activities and hanging out with friends just as much as last year.

Kai R

My first year at SMA was very exciting. The activities were very fun and sigma. I made lots of new friends and connected more with old friends. I had lots of fun doing soccer in the rain and sup n sail.

Fionn Manning

My first year at SMA was a really fun experience. The activities we were given were fun especially mountain bike masters but I do wish there were more chances for basketball. Making new friends was really nice but I did lose 3 of my favorite shirts. Hopefully I will come back next year.

Lily

This was a good session, I enjoyed this a lot. Also my secret friend is really good and I hurt my face on the wake tube but it's fine. I also have two favorite counselors Mollie and Jordan and I'm loud this year unlike last year. I also had a lot at Sheetz and also Jud games were fun. I made lots of friends during this time and I also met this girl named Elizabeth and we became friends and I'm happy about that. Olivia and Zoey are my true friends that I hope to see. I'm gonna miss this camp.

Olive

I can't believe I've been here for a month already. This summer has been an incredible adventure for me. I have made so many new and old friends and I can honestly say that I Love SMA! Thanks to all the camp counselors who helped make my summer so amazing!

Zoey Kastner

This session was one of my favorite sessions this year. I have gone through a lot of new experiences and I have met a lot of amazing people I will miss. I've spent the past month and a half here at SMA and I have found myself changing mentally and physically. I have become more confident and more open to people. SMA has changed me so much in a positive way 😊

Kylie

This was my 2nd SMA Summer and I loved every minute of it. From white water rafting to art studio to camping overnights to Jud Games every day seemed like an adventure. I made a lot of new friends and it was great to connect with friends from last summer. I Love SMA!

William

This was my second summer at SMA and I had a lot of fun. It was great to see my old friends. The Crow's Nest was crazy but fun and we sometimes got some sleep. I like sports and wakeboarding and the magic carpet. This camp was fun.

Bethany

This session was a new experience I enjoyed. I had never gone to a this camp before and I didn't know what to expect. For the first few days I didn't know anyone and mostly kept to myself. Slowly, after having fun at the camp activities, I talked to more people. This made things like the overnights so much more fun. It was really nice to get outside and do things away from technology. Being away from the heat and humidity of the coastal zone was also refreshing. I love the fact that I tried new things like mountain biking and real rock climbing. It was a great time in the forests and mountains of Pennsylvania.

Evie Delano

I came to this session in the middle so I have been here for about a week. I have had a lot of fun in this week of SMA and one of the best parts for me was white water rafting. On the van ride there we got a flat tire just as it started pouring down with rain and even though we all got soaked, it was super fun. This week has been really great and I'm excited for the next session!

Daniel

My time at SMA has been fun. A highlight of my trip was the cabins. I met a lot of good people in my cabin and they made me feel at home.

Elizabeth Kerouac

3rd session was very nice. I enjoyed it just as much as the first. The people here were just as amazing. I'm so glad I came back. Making new friends and learning many new things is the best part about camo. I know for sure I will be coming back next year.

Lucas M

SMA was a better camp than I thought it was going to be. I'm a first year camper and I made a lot of friends. The Crow's Nest Cabin was a lot of fun. I liked the rock climbing and I loved the mountain biking. Rock On Mountain Bike Masters! I hope to see everyone next summer!

Benji Miller

As session 3 is ending it's time to reflect. This session was way better than the last. I even got Dairy Queen! I always had fun at wake masters and I even jumped the wake! I can conclude that I had fun.

Helaina Fitzpatrick

SMA session 3 was amazing as always. This year I did everything I could and enjoyed it to the fullest extent I could. There was no specific highlight because it was all so fun! I loved talking to new people, learning about their lives outside of the USA or things that are outside my normal and doing things I love everyday! Thank you to everyone at SMA that made it all possible!

Samantha Rubin

Overall, this camp was a fun experience for me. I loved the various different events here and the simple and straightforward way they were chosen. The people here are very understanding and kind and the food here is good too. The schedule was a little hard to adjust to but other than that, this was a great time for me to pass my summer and I've seen and done so many new things that I wouldn't typically do in my free time. My favorite event is probably wakeboarding or rock climbing and I liked how much time I spent on each activity. The free time I had here without my phone impacted me as well, I don't usually read in my free time but utilized the time here to do so. It was a nice 2 weeks.

Cooper

This session I had a lot of fun. It was definitely interesting to say the least. This camp is genuinely life changing and I would definitely not be the same person I am today if I hadn't come here.

Bex

SMA session 3 was fun. I finally got out on the wake boat and almost got killed when I was tubing lol. I saw a lot of people from last year and I met a lot of new people. Crows Nest is the best cabin and most people in my cabin were super fun. I'm excited for camp next year.

Marin

At first I wasn't happy to be here and wanted to go home because I was scared because of my English but now I'm happy here. I did a lot of fun activities and people here are nice.

Bradley

SMA was really amazing. I did a lot of rock climbing, even a rock climbing overnight! I was really proud when I finished my first rock climbing course. I have a lot of projects now too - I feel like camp can make me unleash my inner person and not pretend to be someone else! I can just be me without the worry of a consequence. Pure freedom. On the rock climbing overnight we showed up and explored the caves but after we set up the camp it turned out we shouldn't have been climbing there so we stopped climbing. At the night we were told scary stories by the campfire. My favorite was 'humans can lick too'. We also heard the famous hatman story. The next day we went to an Amish market and got some delicious baked goods. I bought a nerf gun at Walmart to get my revenge on Benji and later we went white water rafting. I fell off twice, it was scary but fun too! The talent show was a blast and I even had an act. My secret friend even got me a two liter bottle of ginger ale that I was close to finishing after 5 hours. I got some great pictures. I will definitely return next summer and hopefully for even longer than this first time.

# SMA Session 3, 2024 STAFF Team Reflections!

Kim Schnalke

This session was very different from the last two sessions. First of all because it was way bigger than the last sessions and second of all because there were so many first year campers. It was still a lot of fun to get to know new kids and to meet returning campers from last year. My highlight this session was all day wake masters. We went tubing and wakeboarding and it was so much fun. We had so much fun on the boat, especially because we had enough time to just go for a swim in the lake when it got too hot. Another highlight was performing a fun song at the talent show with all the counselors. It's fun to do stupid things like that because nobody at SMA makes fun of others. So everyone can just be silly and be themselves. I'm definitely going to miss some of the kids here, especially those who were here for two or three sessions. But I'm also looking forward to session four because it's the last one this summer and I want to make the best out of it to leave this place with only good memories. I'm very excited for what will come and I'm looking forward to applying my new knowledge to the last session. This summer, the kids and especially the counselors are just great and I love every single one of them!

Amy Roebuck

Session 3 has gone by so fast! I've really enjoyed spending time with this group of campers, everyone brought a great energy and it's been nice to see everyone get so involved. This session the talent show was so much fun! I also enjoyed chilling with everyone on sup n sail and being creative in art studio - my favorite art project this session was the name plaques. I'm gonna miss these campers and I can't believe the summer is nearly over. Can't wait to see what session 4 brings!

Mollie Bruce

I have really, really enjoyed this session and can't believe that it is already nearly over! The kids have been amazing and it's been really nice getting to know each of them even more whether they've been here 1, 2, 4, 6 weeks. I got to try new activities like archery and tennis which it turns out is very different to watching on the TV but was so much fun. I'm finding it hard to come to terms with how quick time is going and that I only have two weeks left. The friendships I've made with the other counselors are amazing and I don't know how I'm going to say goodbye. It isn't like we all live a couple of hours drive away from each other either because we're all from different countries. I'm going to try and not think about that and enjoy the last couple of weeks in the moment because that is one of the things I've learnt to do here. I've had so many great moments this session but some definite highlights are dancing in the rain and sliding down the hill when it was wet and also finally recording Max's spider web album and performing it in the talent show!

Max Oettl

My experience for session 3 was really good. It was fun to do all the activities and connect with all the kids. It was the best talent show I've ever had. I made the Allegrippis trail fully for the first time and it was so much fun. It was also the best mountain biking overnight I've ever had. I spoke to many new people and had much more fun with the people from session 2. The staff team is a big family and I'm glad for everyone who is here.

Chase Cloward

Wow, Session 3 had so many returners which made it so much fun. It was awesome to meet new campers and mix with the old campers. White Water Rafting was so much fun even though the was a bit low. Session 3 was a blast and I'm going to miss everyone who is leaving.

Nine Pradal

Session 3 is getting to the end and I don't want this summer to be over. This session was one of the best ones. I was afraid of being too tired but the group of kids really helped me keeping my energy up. I really felt the SMA 'vibes' during these 2 weeks. I just loved taking them on activities, talking to them, helping them face and overcome their fears. I had a blast during white water rafting, I felt more confident than the other times and I even received compliments from the guides!

Laura Cloward

Session 3 feels like it went so fast. One of my all time memories was a day when it poured down crazy rain and I started dancing then some kids and counselors joined in. We danced, sang and slid down the hill. What a moment! Wake boat was an amazing team and great wakeboarders. I took care of the little group that didn't go to the white water rafting and we made it a great day by seeing everyone on their rafts from a bridge, then we went to cucumber falls and the rock slides where we swam in beautiful pools. Session 3 was full of amazing tiny humans and I really enjoyed it.

Connor Fry

Session 2 has been fantastic. I feel the staff team has picked up a second wind, characterized by the persistent zeal and enthusiasm observed on activities. What a great team! The campers too have been great and I've enjoyed watching personalities shine through. A particular highlight personally has been towing campers on the tube. Screams, smiles and laughs all around. On a more solemn note, I will be departing camp in the morning. It's been a privilege to return for four weeks and it's felt like more of a holiday than a summer job! It's a great team of counselors and witnessing old campers like Trey and Nine bring their passion for SMA to the table every day has been incredible. I believe this place truly shapes people and I wish Jud, Anne and all the rest of the SMA family the very

best as they continue to shape the development and lives of these very special young people. Thanks and all the best!

Zoey

This session started off with a bang. Lots of campers stayed for intersession and I loved the waterpark - it was great fun. I loved meeting new campers and growing bonds with the first years. The climbing overnight was a big highlight and I'm so happy I got to experience it. Caving was super fun. Let's go for session 4!

Jordan Thorne

Session 3 was type 2 fun. It was one of those things where in the moment it was pretty fun then after you realize how much you miss that session. Halfway through session 4, I find myself thinking about previous sessions, campers and activities. Session 3 was one of the ones where everything that could happen, did happen which kept things interesting. For that, I'm grateful.

Caroline Geba

Arriving a few days into the session, I was nervous because I had missed the time to get to know everyone. But within a few hours of getting back, it felt like I had never left. I got to see a lot of familiar faces. As the session progressed, I got to know a lot of new people and reconnect with others I was campers with in the past. It has been such a privilege to watch these kids grow up and mature and discover who they truly are at SMA. From ice cream to the talent show, all camp activities were always fun! Leading art studio was a highlight for me. Getting to know other staff better and watching the kids express their creativity was awesome!

Jameson

As a former camper, it's been weird to return to SMA 3 years later as a staff member. It has definitely been a bit of an adjustment and I have often found myself having to walk the line of being an authority figure and relating to campers as a 20 year old kid. It definitely took some getting used to but I felt I continued to improve at it and gained the respect of most of the campers throughout the session, especially in Tussey. My favorite part of working here has been getting to know all of the campers. I hope that I've had as big an impact on their

lives as they've had on mine. I hope to be back here at some point in the coming years as a full counselor and not just an AOP.

Zak

After missing the 1<sup>st</sup> 2 sessions of the summer I was super excited to be back at SMA for Session 3! It was really awesome to see that the rest of the staff team had the camp running like a well oiled machine. I had some amazing times this session from Disco Bowling to learning proper tennis technique! I also liked the quieter times and enjoyed some of the wide-ranging philosophical discussions during power hour and meal times. As SMA Session 3 drew to a close I started to feel at home again!

Mason Craig

SMA Session 3 was probably my favorite session of the summer. I was a lot less nervous going into 3<sup>rd</sup> Session as I had already been here for 2 weeks during SMA Session 2. I love SMA and being here as an AOP is pretty awesome. I really enjoyed the campers this session and getting to know each and every one. It was also great to have ZAK return to SMA to help with Mountain Bike Masters! I was his camper 2 years ago so it was super cool to be on the same level as him. Overall SMA Session 3 was so much fun!!
